Full Stack Developer with 2+ years of experience in Django, Python, and AWS, specializing in web development, API integrations, and database management. I have built volunteer platforms, event management systems, and enterprise solutions, focusing on authentication, CI/CD, and cloud scalability. Skilled in PostgreSQL, HTMX, Tailwind CSS, and system optimization, I excel at problem-solving, adaptability, and collaboration. Currently expanding expertise in cloud architecture and DevOps to deliver secure, high-performance, and scalable applications while working in fast-paced, team-oriented environments

## SKILLS

**Soft Skills:** adaptability & resilience, self-learner & continuous learning, attention to detail, empathy & team collaboration

**Back-end:** Python, Django, Flask, Ruby on Rails, Laravel, RESTful APIs, GraphQL, Unittest, Pytest

**Front-end:** HTML, CSS, JavaScript, Tailwind CSS, Bootstrap, HTMX

**CI/CD & DevOps:** Git, GitHub, GitLab, Docker, Automated Testing, Deployment Pipelines

**Cloud Computing:** AWS Solution Architect (EC2, S3, RDS, ElastiCache, Route 53, IAM, VPC, CloudFront)

## PROFESSIONAL EXPERIENCE

### Developer Full Stack | Freelance

- **sawaid.net | Dec/2024 - now:** Developed a volunteer platform using **Django** with a full-featured **mission management system** for organizations and volunteers.
  - Designed and implemented a relational mission system, linking organizations with volunteers.
  - Integrated secure authentication using **OAuth2** and **social media login** (Google, Facebook, etc.).
  - Integrated in-app and email notifications for mission updates and approvals using **Celery**.
  - Deployed and managed cloud infrastructure using **AWS (EC2, RDS with PostgreSQL, CloudFront, and Route 53)** for scalability and performance.

**DJANGO** **CELERY** **HTML** **BOOTSTRAP** **OAUTH2** **HTMX** **JAVASCRIPTS** **AWS** **GIT** **GITHUB**

- **sl4c.org | Feb/2025:** Developed and deployed a modern organization website using **Django**, integrating **database migration, event management, and cloud infrastructure**
  - Migrated and transferred the database to support a new website design.
  - Built a dynamic portfolio and events platform for company showcases and event listings.
  - Create space for their research and books using S3
  - Integrated social media comments to display user engagement directly on the website
  - Deployed and managed cloud infrastructure using **AWS (EC2, S3, CloudFront, and Route 53)** for scalability and performance.

**DJANGO** **HTML** **TAILWIND** **REDIS** **HTMX** **JAVASCRIPT** **AWS** **GIT** **GITHUB**

**Developer | IMAGILE - Caen, France - CDD**

07/2024 - 9/2024

- Developed an after-sales service platform using **Django**, **Tailwind CSS**, and **PostgreSQL**, **Pytest** implementing user authentication, a dashboard, and a ticketing system
- Upgraded an ML models website to **Django 4.2 (LTS)**, resolving compatibility issues with **Pandas**, **NumPy**, **Matplotlib** and other Python libraries.
- Optimized database management by implementing a **Ruby on Rails** action(script) to transfer and archive over 20 million PostgreSQL rows in a new archival environment.

**PYTHON** **DJANGO** **HTML** **TAILWIND** **PYTEST** **RUBY ON RAILS** **GIT** **GITHUB**

**Project Manager | Olive Branch & Citizenship League – Bierut - Lebanon**

01/2017 - 07/2022

- Planned and implemented a \$5M+ funding project, including proposal writing, logframe development, evaluation planning, and budgeting, in collaboration with relevant departments.
- Engaged in direct communication with key stakeholders, including EU, UN agencies, NRC, and local NGOs, ensuring alignment with funding requirements.
- Monitored and evaluated project outcomes, ensuring they met established goals and impacted metrics.
- Managed and supervised project implementation, ensuring adherence to planned frameworks and timelines throughout the project cycle.
- Led the development of monthly internal and external M&E reports in coordination with the Monitoring & Evaluation department.
- Successfully rehabilitated 12 schools in Northern Syria, improving educational access for local communities.

**EDUCATION****Bachelor de Genie Mechanic (3 years)- Damascus University, Syria, June 2016****Harvard University Courses:** CS50x, CS50P, CS50W**AWS cloud practitioner - certified 2023****VOLUNTEER EXPERIENCE****Emmaüs Connect Paris, France**

11/2024 – PRESENT

- Volunteer as IT technician

**ARTIFAILLE - Caen, France**

09/2023 - 07/2024

- Volunteer as IT technician

**LANGUAGE COMPETENCIES**

- French: Intermediate
- English: Professional
- Arabic: Native L
